Dear Sir:

Prior to examination on the merits, please amend the above-identified U.S. patent application as follows:

In the Specification

Please amend the specification as follows (A marked up version of the amended specification is attached):

Page 1, first paragraph:

B1

The present invention relates to a liquid crystal display device, and more particularly to an in-plane switching mode liquid crystal display device, wherein the aperture ratio is improved, the driving voltage is decreased, and the fabricating cost is reduced.
